Dear Janet

Thanks for this. Obviously disappointed that LVRP not able to contribute to costs, but have managed to find a small sum for Madge to pick up some of the work.

Our internal strategy working group met again yesterday and I'm attaching a brief note of key points arising. As you'll see, we concentrated effort on the process for identifying pockets of offside moorings where we're unclear on land ownership and management responsibility. Our aim is to establish contact with land owners, and we hope very much that we may draw on your databases and contacts with riparian boroughs to assist in this.

On the workshop, perhaps Madge and I could meet up with you/Stephen/Claire asap in Jan to develop the plan? By then perhaps you will have response from John B to the stuff you sent him.

Incidentally, we've received three FOI requests for the paper that we sent you for discussion. I plan to supply this along with a bit more information to put it into context.

All the best

Sally

Thanks for this Sally - will send our notes from the meeting and your proposal for the workshop to John Bevan today.

In answer to your points

- 1 LVP is able to confirm their approval of your proposal for the development of a mooring strategy for the Lee & Stort but we regret that we are unable to offer any funding towards the work, at this stage.
- 2 I've not been able to catch up with our Greenspaces Manager since BW attended their Ranger meeting but will ensure that you get feedback from them.
- 3 We support the idea of a workshop and agree with your audience proposals but are unsure what level of interest you will get when it is not necessarily realised or understood by others that there is a problem. We are perfectly willing to host an event and suggest that we work with you to agree a guest list and actively encourage attendance. Perhaps Ian could help with raising awareness through his planning contacts?

Hi Janet

I noted three actions from the meeting - I think that everything else was in the paper dated 17th Nov.

1) Development of the mooring strategy: (a) LVRP to confirm commitment to this project and (b) could you contribute to funding for a project officer? Outline/draft brief for this is attached

2) Shared working with Rangers: good start made by operational teams on both sides: LVPA needs to endorse the joint working approach.

3) We agreed that there was a need to educate riparian local authorities with moorings-related problems about the relevant powers, duties and responsibilities of the agencies involved. We discussed the possibility of a one day workshop or conference for this purpose and I agreed to outline some proposals for discussion. These are now attached.

Do let me know how these are received. I will send the project management proposal to Madge Bailey and ask her to quote for the work.

Best wishes

Sally

Sally - have finally got round to typing up our notes from the mooring meeting and wondered whether I could ask 2 favours please?

- \* Could you email me the maps which you handed out showing the local mooring zones
- \* Could you clarify how you thought the local authority workshop was meant to be taken forward - we have different recollections here!

Thanks and best wishes!
